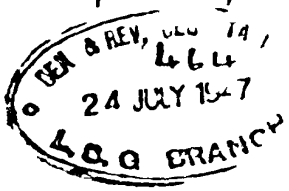
Office of the President
City Municipal Council Mysore

Date 16th June 1947

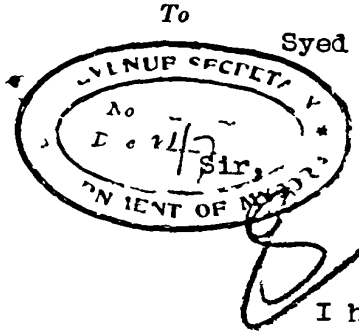
From

R RAMACHANDRA RAO BHOMBORE Esq B A
President City Municipal Council
MYSORE



To

Syed Abdul Aleem, Esq ,B.A.,
Secretary to Government,
Revenue Department,
Bangalore



Sir,

Subject - Transfer of the Meter reading staff of the V V Water Works to the control of the Municipality

---

I have the honour to state that the reading of meters installed in the City for water-supply is being done by meter Inspectors who are under the control of the V V Water Works After taking the readings they submit them to the Superintendent, V V Water Works who in his turn sends them to the Water Revenue Section of the Municipality Thereon bills have to be prepared in the Municipality and sent to the consumers(both domestic and non-domestic) This dual system of work and control is resulting in unnecessary delay and consequent inconvenience and difficulty in the recovery of water-supply charges from the concerned parties In many instances, especially those pertaining to non-domestic connections, the dues become irrecoverable on account of the fact that by the time the bills are prepared and sent to the consumers they will have vacated the premises and shifted elsewhere and the proprietors of the premises cannot be held responsible as the connections will have been taken by the tenants

The Council who examined this subject at their meeting held on 10-6-1947, have resolved that the Government be requested to hand over the meter-reading staff to the control of the Municipality in the interests of the Municipal revenues and also to obviate the dual control resulting in delay in the prompt collections of water charges The transfer of the meter-Inspectors to the Municipality will ensure the quick preparation and despatch of bills and immediate recovery of water charges

In enclosing herewith a copy of the resolution thereof, I request you kindly to obtain early orders of Government sanctioning the above resolution of the Council

I have the honour to be,
Sir,
Your most obedient servant,

PRESIDENT

Docket Abstract

Transfer of the Meter reading Staff of the Vanivilasa water works - Mysore to the control of the City Municipality

Sir

With reference to your letter No Ms-P 192 dated 16-7-1947 requesting orders of Govt on the resolution dated 10-7-47 of the City Municipal Council on the above subject, I am directed to state that it is reported that the existing system does not involve any appreciable delay in transmitting the readings to the Revenue Section of the City Municipality

Regarding the non domestic meters, it is seen that such meters are read once a

month and that by transmitting the readings as and when taken and by prompt preparation of bills, recovery of water charges could be made secure

The Chief Engineer for Electricity has, however, been requested to issue instructions to the Superintendent Vanivilasa Water works Mysore to see that the meter readings are sent to the Municipality promptly

As the Superintendent Vanivilasa Water works Mysore, is the authority responsible for the readings of meters in the city, Government consider that the Meter Readings should continue under his direct control as hitherto and that there are not sufficient grounds to

necessitate a change from the existing arrangement

Yours sincerely
